

BRITISH  
FIRES

THE ASHLETT

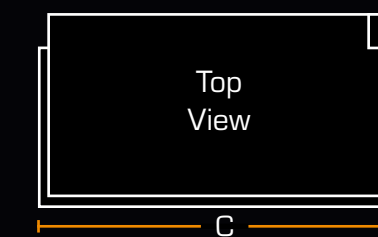

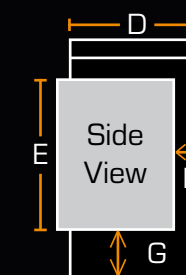

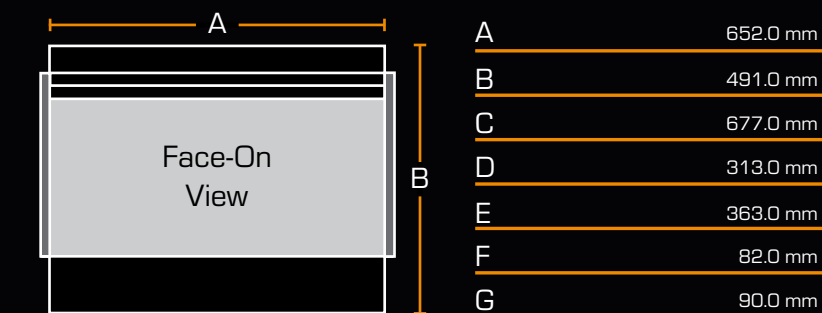

# ASHLETT

## DUTCH INSPIRATION

The Ashlett Insert adds another option to the British Fires' growing product catalogue. Following Dutch proportions, the insert allows for one, two or three-sided installation. It can be upgraded with a steel frame finished in a textured powder coat black paint to suit single sided, 2 sided (corner) or 3 sided (Bay) applications. There are 3 single sided frame and panel options to fit new builds and many existing masonry chimney openings.

## DELUXE FROM THE START

The Ashlett ships as standard with Deluxe Real logs and Dark Rear Glass ensuring a premium realistic viewing out of the box! The British oak logs and fuel bed finished with bark and wood-chippings come to life with the rich warm and vibrant hues glowing underneath.

# OPTIONAL FRAMES/PANELS

# DELUXE REAL LOGS

As standard, your electric fireplace is installed with our premium Deluxe Real Logs for all models.

Each Deluxe Real Log is unique and artisanally crafted using actual logs found in nature. They really enhance an already prominent statement piece in any room and will take any viewer by surprise - especially when you tell them that they are real logs.
