## SIENA 750 GF2L AND GF2R\*

## **APPLIANCE DIMENSIONS**

\*Please note: The above drawings reflect the design of 750 GF2L. Both units share identical dimensions, however the clearance diagram should be mirrored to compensate for the opposing side glass options (left and right).

50mm air gap

|   |   | No heat shield | Heat shield with 50mm air gap | Heat shield attached to the combustible wall |
|---|---|----------------|-------------------------------|--|
| Α | Rear of heater to rear wall                     | 1150           | 200                           | 400  |
| В | Side of heater to side wall                     | 875            | 150                           | 300  |
| С | Hearth extension from the glass opening*        | 700            | 700                           | 700  |
| D | Centre of flue to rear wall                     | 1339           | 389                           | 589  |
| E | Hearth extension from the side of the heater    | 200            | C & G                         | 200 & C                                      |
| F | Hearth extension from the rear of the heater    | 200            | Refer to G dim.               | 200  |
| G | Hearth extension towards the heat shield        | N/A            | Extend up to the heat shield  | Refer to E & F                               |
| Н | Heat shield extension from glass opening        | N/A            | 900                           | 900  |
| J | Heat shield extension on rear wall              | N/A            | 500                           | 500  |
|   | Heat shield height from hearth                  | N/A            | 1900                          | 1900   |
|   | Hearth thickness directly below the appliance   | 150            | 150                           | 150  |
|   | Hearth thickness extending beyond the appliance | 50             | 50                            | 50   |

## Hearth recommendation:

It is highly recommended that Hebel Block material to be used as the hearth both directly below the appliance and extending beyond the appliance base. Please consult with retailer or installer if you wish to change the hearth material or clearances.

\* Please refer to Hearth Clearance document for further information.
